

Benbow Steels Brings XCarb® to the UK Pre-Painted Steels Market

Benbow Steels are proud to be the first supplier in the UK of ArcelorMittal's innovative XCarb® certificates which can accompany their pre-painted steel products.

XCarb® certificates are available to purchase alongside ArcelorMittal's range of prepainted steel products and certify the significant reductions in carbon emissions that ArcelorMittal have been able to make with their revolutionary, multi million pound investments in their XCarb® initiatives. Purchasers of these certificates can claim these significant savings as part of their Scope 3 declarations.

These certificates are formally, independently verified and Benbow Steels will pass it on to every user to claim the reduced emissions as part of their Scope 3 declarations.

“ Climate change is an overwhelming societal priority. At ArcelorMittal, we have an important role to play in helping society deliver the objectives of the Paris Agreement and are determined to lead our industry's transition to carbon neutral steel.

— Aditya Mittal | CEO, ArcelorMittal
